Work Smarter.

Safety Storage Ingredient Systems New!

Improve safety and productivity with new Safety Storage Bins for smaller quantities of ingredients. Patent-pending lid design provides access to ingredients while stacked, on a shelf, or under a prep table.

- Patent-pending lid design allows for one-handed access to ingredients while stacked
- Clear windows and ingredient labels for easy identification of contents
- Integrated 2 Cup Safety Portioning Scoop and hook provide dedicated scoop storage for safe ingredient portioning
- Assists in complying with FDA Food Code 3-304.12
- FIFO (First In, First Out) barrier aids in proper rotation of ingredients

NSF.

FER 2007 SMALLWARES AWARD WINNER

CART AND BINS WORK TOGETHER
Cart shelves have safety positioning locators to securely store and transport bins. Each shelf holds two 100 Cup Bins or one 200 Cup Bin.

AVAILABLE APRIL 2008

9G59

- Dual opening and closing allows for one-handed access while stacked or in storage

- Lid locks onto base to protect ingredient integrity

- Safety Portioning Scoop and Hook comply with the FDA Food Code 3-304.12 for In-Use Utensils, Between-Use Storage

- FIFO Barrier supports first in, first out rotation of ingredients for improved quality and safety

- Height of 16" fits on most storage racks

- Front and rear handles aid with safe and stable portability

- Container Base is durable with smooth surfaces to help maintain cleanliness

* Available April 2008.

PRODUCTIVITY

Patent-pending Scoop Hook allows scoop to be easily accessible in every Ingredient Bin.

SAFETY

Scoop handle is held out of Ingredient Bin, preventing cross-contamination.

SECURITY

Snap fit secures to base to make handling easier.

COMPLIANCE CODE FACTS

Rubbermaid Commercial Products' Ingredient Bin Systems are the only containers on the market that allow scoops to be safely stored inside the bin while also complying with the FDA food code by staying out of the ingredients. (FDA Food Code 3-304.12, 2005)

Ingredient Bin Systems

Store, transport, and measure ingredients safely.

- Patent-pending scoop hook system reduces cross-contamination and provides quick access
- Clear windows and ingredient labels for easy identification of contents
- Clasp secures lid on base, protecting quality of ingredients
- Durable, industrial-grade structural web plastic construction; smooth surfaces for easy cleaning
- Casters allow bins to be easily moved between multiple prep stations
- Assists in complying with FDA Food Code 3-304.12

Rubbermaid ®
Commercial Products

Space Saving Square Storage Containers
Stackable containers store more in less space.

- Square containers store up to 25% more on a shelf than round containers in the same space
- Available in break-resistant clear polycarbonate for visibility or durable white polyethylene; both with smooth surfaces for easy cleaning
- Manage food inventory with easy to read measurement graduations—red for quarts and blue for liters
- Durable handles for easy transport and drain holes for proper washing and drying
- Temperature range for clear containers: -40°F/-40°C to 212°F/100°C
- Temperature range for white containers: -20°F/-28.89°C to 150°F/65.56°C
- USDA Meat & Poultry Equipment Group listed
- Assists in complying with HACCP guidelines
- NSF certified and commercial dishwasher safe

Lids

- Snap-tight fit reduces leakage, helps prevent spoilage, and limits cross contamination
- Corner pull tab for easy lid removal
- Lids available in two sizes to fit all containers, eliminating the need for multiple lids
- NSF certified and commercial dishwasher safe

Round Storage Containers

Store food safely and efficiently.

- Stackable handled containers available in white polyethylene or semi-clear polypropylene for better visibility
- Temperature range: -20°F/-34°C to 212°F/100°C
- NSF certified and commercial dishwasher safe

Lids

- Positive-lock lids (double wall seal) with corner pull tabs for keeping foods fresh
- Writing area provided for labeling and dating of contents
- Lids available in three sizes to fit all containers, eliminating the need for multiple lids

Commercial Products

Food Boxes
Reduce food spoilage costs.

- Durable and stain-resistant clear polycarbonate allows for easy identification of contents
- White polyethylene provides more economical storage and safer transport
- Freezer safe for use through the flow of the kitchen
- Date control panels on boxes and lids for managing food safety
- Industry standard sizes fit most existing storage racks and counters
- NSF certified and commercial dishwasher safe
- Assists in complying with HACCP

Lids

- Tight-fitting snap-on lids keep food fresher
- Use 3302 and 3310 as trays when displayed upside down

Colander Accessory

- For multiple food storage and prep applications
- Fits all full-size 26" x 18" boxes 6" or deeper
- Drains food quickly and conveniently; also ideal for marinating and thawing foods

Polycarbonate Food Boxes provide clear view of contents.

FOOD HANDLING AND STORAGE SOLUTIONS THROUGHOUT THE FLOW OF FOOD
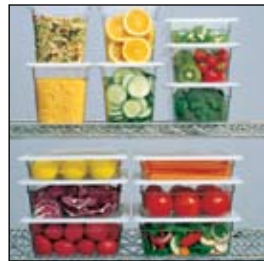

Storage

Cleaning

Preparation

Serving

Cooking

LIDS FOR EVERY NEED

❶ SECURE SEALING LID
Two-seal system makes this lid the most air tight of all the Rubbermaid options and is ideal for longer term storage or air sensitive foods. Easy grip tab allows for easy removal of the lid from the pan.

❷ PEG HOLE COVER WITH HANDLE
Peg hole allows pan to be hung and dry faster, helping to prevent health risks from standing water. Rubbermaid's peg hole solution is the only NSF certified hanging solution on the market.

❸ COVER WITH HANDLE
Solid cover helps to protect food from airborne bacteria.

❹ NOTCHED COVER WITH HANDLE
NSF certified notch allows spoon to be easily available while food remains covered. Notch keeps spoon handle out of food, helping to prevent cross-contamination.

❺ SOFT SEALING LID
Seals on insert pan help reduce air flow to food; therefore, maintaining food quality. No overlap on food pans allows easy use in transport.

COLD FOOD PANS
- Cold pans and lids temperature range: -40°F/-40°C to 212°F/100°C
- Soft sealing lids temperature range: -40°F/-40°C to 102°F/39°C

HEAVY-DUTY HOT FOOD PANS
- Hot pans temperature range: -40°F/-40°C to 375°F/190°C (not for use with open flame)
- Superior chemical resistance and durability compared to competitive materials
- Tested and approved for use in continuous motion pot washing systems
- Cooling and heating rate comparable to metal pans

HOT & COLD FOOD PAN FEATURES
Break-resistant—won't rust, dent, or bend. Quieter than metal.
- Non-stick surfaces for better food release and easy cleaning
- Designed for safety—cooler to the touch than metal
- Pans with soft sealing lids designed to fit Max System™ Racks & Carts, CaterMax™, and ProServe® Insulated Carriers
- Meets C.E.N. Gastronorm specification 631-1, developed by the European Committee for Standardization
- Pans, drain trays, and lids certified to NSF Std. #2
- Made with FDA compliant materials
- Commercial dishwasher and microwave safe

Rubbermaid
Commercial Products

Integrated Preparation Solutions

**Designed by chefs and engineered by
Rubbermaid® Commercial Products.**

- 50% less waste through improved access to corners and bottoms of pans
- Accurate measurements for controlled portion sizes
- Size of Tri-Ladle and Precision Portioning Spoons are clearly etched on front, reducing employee error
- Limited lifetime warranty

**See it in
ACTION**
www.rubbermaidpreptools.com

FER 2006 SMALLWARES AWARD FINALIST

- Portion sizes clearly marked on handle
- Precision spout improves pouring into small vessels

- High heat, cool touch handle
- Portion sizes clearly marked on handle
- Mirror finish bowl creates an attractive portioning spoon

- Flat sides for cutting or scraping

Tri-Ladles

Three-corner, three-sided design easily scrapes corners and sides of pans.

- A portioning tool with clearly etched, accurate bowl capacity
- Precision spout improves pouring into small vessels
- Concave handle for comfortable, balanced use in left- or right-hand pouring
- Hook and eye storage options; hook keeps the ladle from slipping into the pan/pot
- One-piece design of 18-8 stainless, with mirror finish bowl and etched handle

High Heat Scrapers

All purpose scrapers and spatulas are a necessity in every kitchen.

■ Silicone blade and nylon handle resist temperatures to 500°F/260°C and help prevent burns
■ Clean-Rest™ feature keeps blade off countertops, reducing cross-contamination
■ Notched scraper blade cleanly scrapes sides of pans
■ Blades are stain resistant and will not scratch pans
■ NSF certified and commercial dishwasher safe

1962   1966

Clean-Rest™ reduces cross contamination.

Scrapers/Spoon-Shaped Spatulas

Spoon, scrape, and spread with one easy tool.

■ Blades are molded into handles for seamless construction that reduces build up of dirt and bacteria
■ Clean-Rest™ feature keeps blade off counter tops, limiting cross-contamination
■ NSF certified and commercial dishwasher safe

1905

Clean-Rest™ reduces cross contamination.

Bouncer® Scoops

Multi-purpose scoops for use throughout food service operations.

- Durable clear polycarbonate (2882, 2884, 2886) or white polyethylene (2885) can be used for a variety of applications
- USDA Meat & Poultry Group listed
- Assists in complying with HACCP guidelines
- NSF certified and commercial dishwasher safe
- Bouncer® Contour Scoop (9F75 & 9F76) is designed for the Ingredient Bin System (pg. 183); the contoured design keeps hands away from food, reducing cross-contamination

[A] Certified to NSF Std. #2 (polycarbonate only).

SOS Special Order Smallwares

Safety Portioning Scoop

Maintain food safety while managing food costs.

- Hybrid scoop and measuring cup allow for portioning or measuring milliliters, cups, or ounces
- Anti-roll design for storage or food use without the risk of the handle rolling into the food and posing a contamination risk
- Permanent textured graduations for dry and liquid measurements
- Nestable for flexible storage options
- Durable polycarbonate is commercial dishwasher safe
- 9G51 and 9G52 are designed to fit Safety Storage Bins (see page 182)

Nests for efficient storage.

Scoop stands upright on tripod base.

Elevated handle reduces the risk of cross-contamination.

Permanent graduations are molded into the polycarbonate.

Color Coded Cutting Board System

Color coding is the first step in an effective food safety program.

- Assists in complying with HACCP for separation of potentially hazardous foods:
  Red: Raw Meats   Blue: Seafood   Tan: Cooked Meats
  Green: Fruits/Vegetables   Yellow: Poultry   White: Dairy
- Assists in complying with FDA Food Code 3-302.11 for protecting food from cross-contamination
- NSF certified
- Commercial dishwasher safe

PROSERVE® Lightweight Insulated Carriers

Four layers of thermal retention provide lightweight option for safely transporting food and beverage.

- Keeps hot food hot and cold food cold safely for four hours
- PROSERVE® carriers are lighter than solid competitive products, decreasing risk of ergonomic stress
- Divider for 9F15 allows separation within carrier between hot and cold food storage and reduces risk of cross-contamination
- Time temperature monitoring and labeling is easy with large identification window secured to each carrier

RIGID INTERIOR INSULATION
Lightweight and over 300% stronger than Styrofoam®[1] polystyrene, Expanded Polypropylene (EPP) resists flaking, cleans easily, and provides uncompromising support.

REFLECTIVE VAPOR BARRIER
Helps maintain even temperature throughout the carrier, so foods maintain their ideal temperatures.

NON-WOVEN POLYESTER INSULATION
Nearly an inch thick, it's the same insulation used in high-performance coldweather gear. Will not retain moisture or odors.

COMMERCIAL-GRADE NYLON EXTERIOR
Strong (840 denier) nylon surrounds and protects the inner layers.

9G40 Divider for 9F15 allows separation within carrier between hot and cold food storage and reduces risk of cross-contamination.

rubbermaid Commercial Products

Sturdy Chair™ Youth Seats with Microban® Antimicrobial Protection

Sturdy Chair™ Youth Seats make safety and cleanliness a priority for your youngest patrons.

- Contemporary design with Microban® technology makes it easier to clean than wood
- Microban® provides all-over protection from bacteria growth that can cause odors and staining
- Meets ASTM 404-04, TUV, and European safety standards
- Stackable design makes for easy storage
- Fits under standard table without tray

ASTM F404-04 and TUV Certification Standard Consumer Safety Specifications for high chairs that ensures the design and function of the Sturdy Chair™ Youth Seat meets safety specifications intended to minimize injuries to children under normal use.

7815-88 Sturdy Chair™ Tray available in dark blue, platinum, dark green, red and black.

*2006 Rubbermaid Study

Convenient handle for safe, one-handed maneuvering throughout dining room

One-piece T-bar and safety harness safely helps to secure child

Durable molded parts are easy to clean

Available with or without wheels

Microban®
antimicrobial product protection

- Microban® antimicrobial protection helps prevent the growth of stain and odor causing bacteria
- Microban® protection is built into the chair during the manufacturing process and will not wash or wear off during the life of the chair
- Sturdy Chair™ looks newer longer with built-in Microban® antimicrobial protection

Bacteria growth

Plastic sample without protection*

Plastic sample with Microban® protection*
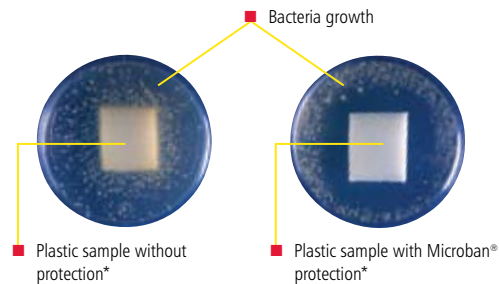

REPRESENTATIVE OF ANTIMICROBIAL EFFECT

This information is based upon standard laboratory tests and is provided for comparative purposes to substantiate antimicrobial activity for non-public health applications. Microban technology is not designed to protect users from disease causing microorganisms. Microban protection inhibits the growth of microorganisms that cause stains, odors, and product degradation. Antimicrobial action limited to product surface.

Microban® protection does not protect user from food borne illness and is not a substitute for normal cleaning practices.
* Time lapse image.

PELOUZE® SCALES AND RUBBERMAID THERMOMETERS AND TIMERS ARE ESSENTIAL FOOD SAFETY AND COST CONTROL TOOLS FOR EVERY FOODSERVICE OPERATION.

SCALES

Smarter cost management begins at the receiving door and is used throughout preparation, portion control, and serving. Pelouze scales are renowned for precise measurements and durability.

Washable and Dishwasher Safe Scales (600 and 800 series) reduce cross-contamination by allowing the scale to be fully washable. Scales can be washed fully assembled or disassembled quickly for a more thorough cleaning.

THERMOMETERS

Temperature control and monitoring is an important first step in any food safety plan. Rubbermaid offers a full line of innovative and reliable thermometers that improve productivity and increase safety.

TIMERS

Rubbermaid timers are designed for the demanding environment of a foodservice kitchen. Multifunction timers provide the flexibility to monitor various food cooking times or cool down procedures.

Digital Hanging Scales

Weighing made simple for sporting, agricultural, or industrial needs.

- ½" LCD display
- Tare feature removes weight of container and allows for multiple weighings
- Memory settings will record up to 4 weighings
- Hold button locks in weight of item being weighed
- Heavy-duty steel hooks will not break or bend

Rubbermaid Commercial Products

TEMPERATURE MONITORING IS A CRITICAL PRACTICE TO ENSURE PROPER FOOD SAFETY.

Thermocouples are widely used in the foodservice industry for their ability to provide quick and precise temperature measurements. Thermocouples have built-in microprocessors that provide reads within 1/10th of a degree. Response time of a thermocouple can be 3–4 times faster than a mechanical pocket thermometer and 2–3 times faster than a standard digital thermistor thermometer. Everyone from health inspectors to chefs uses thermocouples due to their ability to measure a wide range of temperatures quickly and accurately to ensure proper food safety.

TMP4000

Thermocouples provide fast and accurate temperature solutions for any foodservice operation.

Thermocouples New!

Essential tool for any HAACP plan.

NSF

TMP800

- Super fast 3 second temperature response
- Open to turn on, close to turn off—easy to use, no buttons
- Microtip thermocouple folding probe perfect for thin sliced deli meats and delicate foods
- NSF approved

TMP800

TMP2000, TMP4000

- Min/Max/Hold modes
- Probe included with built-in storage and protection
- Dual read Fahrenheit and Celsius
- IP54 rating for dust and moisture
- 8:1 IR Ratio (TMP4000)
- Auto Off, Low Battery
- 9V battery and custom travel pouch included
- NSF approved

CE TMP2000

CE TMP4000

TYPE K THERMOCOUPLE PROBES

Temperature monitoring evolved.

- Manufactured and tested 4x greater than standard ANSI specifications
- Super fast 2–3 second temperature readings
- Interchanges with TMP4000 and TMP2000

Commercial Products

Certifications

ASTM

ASTM F-404-99 is an American Society for Testing and Materials' safety standard for evaluating a High Chair. A "test dummy" that simulates a child of predetermined size is strapped into the chair and various push, pulls, and racking tests are conducted on the chair and also using the dummy to simulate forces required to remove dummy, and to determine the safety aspects of ensuring proper confinement within the chair without causing harm to the child.

ASTM F-2285-04 is an American Society for Testing and Materials' safety performance specification that establishes performance requirements, test methods, and labeling requirements to minimize the hazards to children presented by Diaper Changing Tables for commercial use with children up to 50 lbs.

ASTM 615 is an American Society for Testing and Materials standard specification for Deformed and Plain Carbon Steel. This specification covers deformed and plain carbon steel bars for concrete reinforcement in cut lengths and coils.

ASTM C150-07 is an ASTM standard specification for Portland Cement, specifically Portland Cement Type 1, for use when the special properties specified for any other type are not required, and Portland Cement Type III, for use when high early strength is desired.

CE

The CE marking (an acronym for the French "Conformite Europeenne") certifies that a product has met EU health, safety, and environmental requirements, which ensure consumer safety. Manufacturers in the European Union (EU) and abroad must meet CE marking requirements where applicable in order to market their products in Europe.

FDA

Food and Drug Administration does not approve products. The FDA sets regulations which require compliance.

HACCP

Hazard Analysis and Critical Control Points is a systematic method using principles (Food Hygiene Practices) for analyzing a food process and determining the possible chemical, physical, and biological hazards within that process that should prevent any unsafe food from leaving the process (this process could be for a food processing plant or food preparation in a restaurant).

The seven principles are:
1. Application
2. HACCP Plan Validation
3. Quality Manual Review
4. On-site Readiness Review
5. Registration Audit
6. Registration
7. Surveillance

ISO

ISO is an internationally recognized quality management system that provides:

- Guidance for businesses that want to implement or improve quality systems within their business
- Benchmarks that customers can use to evaluate a supplier's quality system

ISO Certification of the Commercial Products Facilities perfectly embodies Rubbermaid principles:

- ISO certification represents a commitment to continuous value improvement; rather than look at particular products, ISO reviews the systems and procedures through which businesses assure quality products
- ISO certification shows that a company has built a culture of quality
- ISO certification demonstrates a commitment to world class quality systems and the global marketplace

NSF

National Sanitation Foundation is an independent testing lab/organization in Ann Arbor, Michigan. NSF lists products which meet their criteria for cleanability and sanitation: food contact, splash zone and non-food contact, per Standard 2: Food Equipment and Standard 18: Manual Beverage Dispensers. Also, Standard 21: Thermoplastic Refuse Containers.

Sponsorships

Rubbermaid Commercial Products is a proud sponsor of the National Restaurant Association Educational Foundation (NRAEF), the International Food Safety Council and the American Culinary Federation (ACF).

The NRAEF continually seeks to educate current and future professionals in the foodservice industry on food safety issues and best practices through numerous training and certification programs. The International Food Safety Council is a not-for-profit organization whose mission is to heighten awareness of the importance of food safety education throughout the restaurant and foodservice industry.

With over 20,000 members, the American Culinary Federation is the largest professional Chefs' organization in the United States. Known as the Authority On Cooking In America, ACF exists to make a positive difference for culinarians thru education, apprenticeship, and certification. Operating a comprehensive certification program for chefs in the US, accreditation to secondary and post-secondary culinary schools and a globally recognized apprenticeship training program, the ACF provides educational opportunities to a highly desirable core market through a national convention and 4 regional conferences. The American Culinary Federation - Achieving Culinary Excellence since 1929!

Product & Pricing Notes

- Products and Components are subject to change without notice, and may differ from catalog imagery
- Please note that all RCP items are priced by eaches (except can liners, dust cloths, and SeBreeze® Gel Cassettes)
- Refer to "pack" size for exact carton contents
- All pricing listed is reflected in U.S. dollars
- List pricing is subject to change without notice
