HEAT RECOVERY MODELS

KI AWARD WINNING, INDUSTRY LEADERS IN TECHNOLOGY

UH330B - CHAMPION - HEAT RECOVERY TECHNOLOGY

Our revolutionary Heat Recovery technology reinvents dishwashing! Unlike our conventional dishwasher, Heat Recovery utilizes the energy from the machine to improve efficiency, reduce operating cost and eliminate steam exiting the machine.

DH5000VHR - CHAMPION - VENTLESS HEAT RECOVERY

- **COLD WATER FEED ONLY!**
- The temperature of incoming cold water (3/4" NPT cold water line) is raised by heat produced during the cycle, then this water is fed to the booster!
- Steam and heat are collected and re-used
- 10 kW booster standard
- **No hood** or canopy required
- Reduces operating cost by decreasing energy usage
- ENERGY STAR® qualified

Contact your ESI dealer for pricing and availability.
